

COVID-19 VACCINE FACTS

- Safe and up to **95% effective**
 - May require **two doses**
 - Will not give you COVID-19 or cause you to test positive
 - May prevent you from becoming seriously ill
 - Helps protect those around you from getting sick
- May cause **side-effects** similar to the flu shot:
 - » Pain at the injection site
 - » Muscle Aches
 - » Fever
 - » Chills
 - » Fatigue

- Side effects are normal and are a good sign that you're building immunity
- May benefit those who have already recovered from COVID-19
- Vaccine supplies will increase over the coming weeks
- Follow facility guidelines for preventative measures such as masking and social distancing
