# Audit Findings

## Audit Narrative

*The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.*

***This Auditor, Jennifer L. Feicht, was contracted by CoreCivic to conduct the PREA Audit for the Tallahatchie County Correctional Facility. Appropriate auditor methods were utilized to ensure all requirements were met prior to the onsite audit phase. After being contracted with CoreCivic, the request for audit notification was completed in the appropriate timeframe and pictures of the audit notices were emailed to this Auditor.***

***Prior to the onsite audit, this auditor spoke with Eric Pierson, Senior Director of PREA Compliance and Programs. The initial information of a completed questionnaire and supporting documentation were sent to the auditor for review prior to the onsite audit portion.***

***During the pre-audit phase, this Auditor reviewed all information sent by CoreCivic on behalf of the Tallahatchie County Correctional Facility. The PREA Pre-Audit Questionnaire was completed by Kamala Grant, PREA Compliance Manager for the Tallahatchie County Correctional Facility. Additional supporting documentation was submitted by the corporate office. This information included CoreCivic's policy 14-02 and California's policy CDCR 128, 2304, and 2305. After a review of this information, a list of questions was prepared for the onsite visit to the facility. Additional interview related lists were requested during the pre-audit phase.***

***The three-day onsite portion of the audit began on May 14, 2018. This auditor, accompanied by Eric Pierson, Senior Director of PREA Compliance and Programs, informally met with a small group of staff at the entrance conference. During this informal discussion, Warden Frink and Asst. Warden/PREA Compliance Manager Grant were present. During the meeting, this auditor was provided with the requested lists of inmates and staff members. From these lists, this auditor randomly selected both staff and inmates for interviews, as well as specific positions and placements to be interviewed. And initial questions were answered that were compiled from the review of the pre-audit information.***

***Following the initial meeting, a small group took a tour of the facility. This auditor was permitted access to every building and area in which inmates have access to. This included thirteen housing units, the medical department, kitchen, back dock, canteen, maintenance area, tool control, chapel, laundry, control center, library, gymnasium, barber shops, property room, visitation, education and outside areas.***

***After the tour was completed, the interviews began. This auditor is always flexible as to the order in which the interviews are conducted. The first interviews were with staff members. There were (18) interviews conducted with staff members. These interviews included staff***

**members such as randomly selected staff based on the shift they were working. In addition to the PREA Compliance Manager and Warden, Health Services Administrator, nurse, intake/classification, human resources, Mental Health Coordinator, staff supervising segregation, staff who acted as first responders, and a captain were interviewed. In addition, a religious volunteer was also interviewed.**

**Next the interviews with inmates began. The staff provided this auditor with a private space to conduct inmate interviews. During the audit, there were (28) interviews conducted with inmates. These interviews included randomly selected inmates, inmates in segregation, (2) with physical disabilities, (1) who was hard of hearing, (1) with a cognitive disability, (1) who disclosed sexual abuse on the risk assessment, (1) who identified as part of the LGBTIQ population and (1) female inmate from the county. This Auditor did not receive any letters from inmates prior to the onsite visit. There were (4) inmates who refused to speak with this Auditor.**

**Documents were reviewed onsite to assist in determining the compliance of the facility. Documents reviewed included personnel files, employee training files, inmate files, health screening files, and investigation files.**

**At the conclusion of the onsite audit phase, this Auditor met with the same key figures to provide a summary of the issues that were found and gave staff the opportunity to ask any questions.**

## **Facility Characteristics**

*The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.*

**The Tallahatchie County Correctional Facility was acquired by Corrections Corporation of America (CCA), the predecessor to CoreCivic, and began operation of the facility in 2000. The property has thirteen housing units which has the capacity to hold 2800 inmates. On the first day of the audit, the population count was (598). Overall, CoreCivic currently operates (129) facilities throughout the United States.**

**At the time of the audit, there were (386) staff members employed at the Tallahatchie County Correctional Facility. Of those (386) staff members, (75) had been hired within the preceding twelve months. In addition to those staff members, the facility has also entered into (16) contracts for services, working in positions which include the kitchen area and the medical department. And lastly, there are approximately (37) volunteers who come into the facility to provide services, mainly religious services.**

**It should be noted that when this auditor was initially contracted to conduct the audit for this facility, the population was approximately 1,500 inmates. However, by the time of the audit, there were only (598) inmates at the facility.**

***CoreCivic is a private prison business and holds contracts with many entities for holding their inmates. Tallahatchie County Correctional Facility houses inmates for the states of California and Wyoming, Tallahatchie County and the U.S. Virgin Islands.***

***The reason for the decrease in almost 1,000 inmates was due to the fact that the state of California took back a significant portion of their inmates. The staff indicated that the withdrawal started in approximately February 2018 and they lose approximately 53-84 inmates per week.***

***This facility is primarily a male institution, with the exception of one small housing unit of female inmates from Tallahatchie County. All inmates are kept separate as far as both gender and location where the inmate is from.***

***The facility location is in a rural portion of the Mississippi Delta area. While the facility is on a main road, there is little business or houses near the facility.***

***The grounds of the facility are well maintained. Common areas are clean and well maintained. The staff were very friendly and want to do well with this audit and working with the inmates. Issues discussed throughout the tour were immediately being worked on by staff to make the necessary corrections.***
