Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

This the fifth CoreCivic facility this Auditor has provided auditing services for. This is the first CoreCivic facility in Ohio which this Auditor has provided auditing services for.

CoreCivic provided information prior to the onsite audit for review. These materials included policies related to PREA, the completed pre-audit questionnaire and additional supporting documentation.

The onsite audit began on the morning on August 27, 2018 and concluded at approximately noon on August 30, 2018. The onsite audit included an initial meeting, tour of the facility, interviews with staff and inmates, review of PREA related files, volunteer files, personnel files, training files, investigation files, and inmate files. The facility staff provided all materials requested by this Auditor.

The first day began with an initial meeting with key staff members to discuss the agenda for the onsite audit, interviews to be conducted, logistics of the process and answer any questions the staff members had. This initial meeting was attended by the following individuals.

- Heather Baltz – Facility Support Center (FSC) PREA Director
- Brigham Sloan – Warden
- Tasha O’Brien – Human Resource Manager
- Gary Carter – Assistant Chief of Security
- JoAnn King – Assistant Warden/PREA Compliance Manager
- Joy Conley – PREA Case Manager/Victim Coordinator
- Daniel Pritchard – Assistant Warden
- Tonya Bowser – Quality Assurance Manager
- Jeff Fislon – Executive Assistant
- Charlotte Owens – Ohio Department of Rehabilitation & Corrections (ODRC) PREA Implementation
- Jennifer Feicht – PREA Auditor

Following the initial meeting, a smaller group of individuals started the tour of the facility. The tour went through the entire facility including all housing units, the medical department, barber shop, laundry, receiving and discharge (D&C), maintenance, cafeteria, kitchen, dining, commissary, educational building, library, recreation and chapel, visitation and control room. The facility is clean and well maintained. Throughout the tour, this Auditor provided feedback to the facility staff regarding items implemented well and any deficiencies noted.

Interviews were conducted in accordance with the PREA Auditor’s Handbook (September 2017). This Auditor interviewed key staff members, randomly selected staff members, randomly selected inmates and inmates who fall under specific categories. There were (40) inmate interviews conducted, (18) staff member interviews and (2) volunteer interviews and these were conducted in a formal setting. Staff interviews were
conducted from all shifts. Additionally, informal interviews were conducted during the facility tour with both inmates and staff members.

During the onsite audit, questions arose regarding the risk assessment process which facilitated this Auditor contacting the PREA Resource Center to request assistance with the issue. The request for assistance was not addressed until the post audit process.

At the end of the onsite audit, an exit meeting was held in order to update the facility staff on any issues that had been noted through the previous (3.5) days and any corrections that were discussed.

After the onsite audit was completed, the post audit began and the PREA Compliance Manager provided a correction to one of the deficiencies noted during the onsite audit. In addition, this Auditor was able to talk to a staff member from the PREA Resource Center regarding the questions submitted during the onsite audit.

Facility Characteristics

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Lake Erie Correctional Institution is a medium security facility located at 501 Thompson Road, Conneaut, Ohio 44030. This facility is owned and operated by CoreCivic, headquartered at 10 Burton Hills Boulevard, Nashville, Tennessee 37215.

This facility was opened in 2000 and was operated by Management and Training Corporation (MTC) until it was purchased by Corrections Corporation of American (CCA), now known as CoreCivic, in 2012. This facility has been under contract to the Ohio Department of Rehabilitation and Correction (ODRC) since its opening.

The facility’s rated capacity at the time of the onsite audit was 1820. The population count on the first day of the onsite audit was 1765. The make up of the population are inmates who are serving Ohio state sentences and are nearing the end of their sentence.

The inmate population consists of a growing number of inmates who identify with the lesbian, gay, bisexual, transgender, intersex (LGBTI) group. Staff indicated that this population is growing in number. Additionally, there was one inmate at the time who identified as a transgender individual.

The facility has (10) buildings inside the secure perimeter. Seven of those buildings are housing units for the inmates. Six of the housing units are dormitory style with open bays. One unit is restrictive housing with (50) cells. This housing unit is known as the Transitional Program Unit (TPU). The inside yard of the facility is very open and all housing units utilize the same yard, which is in the center of the facility, with all the housing units surrounding it. The other buildings house education and vocation programs, commissary, laundry, a barber shop and R&D.

The facility operates programs to assist with the re-entry of the inmates who will be returning to society. The facility has a GED program for those who have not obtained a high school diploma. Other re-entry
programming includes workshops such as parenting and life skills. Vocational programs include a Computer Aided Drafting (CAD) program, dry wall, building trades and maintenance.

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

CoreCivic, based in Nashville, TN, employs a Sr. Director position and a PREA Director position to assist all facilities operated by CoreCivic in obtaining and maintaining PREA compliance. The PREA Director position was newly created in 2018.

At the facility level, there is a PREA Compliance Manager (PCM). PREA duties are incorporated into the duties of the Assistant Warden of Special Services. The Assistant Warden (AW) of Special Services oversees anything that falls outside of the realm of security at the facility.

An interview with the AW/PCM revealed that there is something related to PREA almost everyday that requires her attention. Through the use of the risk assessments, more and more inmates are identifying as part of the LGBTI population.

In addition, the AW/PCM has been very involved in investigations. The facility is in need of a solid investigator. Currently, the investigator position is open. However, a new investigator has been hired who has already had the specialized investigations training and investigated PREA cases at his previous position. This new investigator will be starting sometime in mid-September.

While the facility meets this standard, it is the recommendation of this Auditor that the agency revisit the duties of the AW/PCM duties to determine if this position truly has sufficient time to dedicate to all PREA related activities that occur at the facility.

Auditor Overall Compliance Determination

☒ Exceeds Standard *(Substantially exceeds requirement of standards)*

☐ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*
Lake Erie Correctional Institution is an all-male facility. There are female staff members who work in security at the facility. However, the staff were all clear during interviews that strip searches were only conducted by male staff members in the facility. Female security staff are permitted to conduct pat searches, however, if a male security staff member is available and, in the vicinity, the male will do the search.

The facility allows inmates to shower, change clothes and perform bodily functions without non-medical staff viewing their genitals. In order to assist with ensuring this is the case, female staff not only announce themselves when entering a housing unit, they also have a buzzer that is activated at that time.

While on the onsite audit tour and confirmed by numerous interviews, it was noted that a couple of female case managers assigned to a housing unit did not announce themselves every time they entered the unit. They would announce themselves at the beginning of the shift, but that is the only time.

This issue was discussed with the AW/PCM during the onsite audit. Just after the closing meeting, the AW/PCM emailed a memo to this Auditor and indicated that this information was sent to all staff members to remind them of the facility’s policy for making announcements every time a female staff member enters the unit.

The buzzer is utilized because it would be nearly impossible, with the layout of the housing units, for inmates to hear someone that only made a verbal announcement when walking into the door of the unit. This practice ensures that all inmates are made aware of this situation as soon as they hear the buzzer, as it is not used for any other purpose.

Staff indicated that there have been transgender inmates placed at this facility, and the AW/PCM was able to articulate the steps that need to be taken to review the placement of an inmate that identifies as transgender. There are currently (2) transgender individuals identified at the facility. The AW/PCM indicated that there are typically (3-5) transgender individuals at the facility.

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Lake Erie Correctional Institution works to provide PREA information in multiple formats. The institution provides written PREA information in both English and Spanish. The video with PREA information can be viewed in Spanish or with closed captioning for those who are deaf or hard of hearing.

If an individual is unable to read or has limited cognitive functioning, then staff members will read the information to an inmate or provide the information at a lower level of understanding.

Not only did staff provide this information about alternate formats, but inmates also confirmed this practice during their interviews with this Auditor.

The inmate population consists of a majority of individuals who are able to speak and understand English. One inmate was interviewed who had a limited vocabulary of English, but knew English well enough to participate in the interview without an interpreter. This individual was in a class at the time to learn to speak, read and write English.
While there were not any LEP inmates identified at the time of the audit, the staff, when questioned, were able to articulate what they would do in a situation if an inmate was unable to communicate in English. All were clear that they would not utilize inmate interpreters in that situation.

The Human Resources Department at Lake Erie Correctional Institution keeps files on both regular employees and contracted employees that work for the facility. Regular employees are designated with red file folders and contracted employees are designated with green file folders.

Background checks are conducted on any person that works for the facility, whether they would be a regular employee or a contracted employee. If the individual applies for a position at the facility and is interviewed, then the background check is conducted. Recently, the Human Resource Director and the AW/PCM have started a practice where both will review the background checks to ensure that the applicant and/or employee have no issues that would violate PREA policy.

The HR Department does attempt to contact any correctional facility that an applicant has worked at previously to ask the required questions. If they receive a response, that information is kept in their personnel file. If the facility receives such a request from another correctional facility, they will respond to the inquiry and keep a record of that.

When a position is open and there may be promotion opportunities, the position is posted internally to CoreCivic. The HR Department will provide the top (5) candidates’ information for consideration and those individuals will be interviewed. Previous job performance and any disciplinary information is taken into consideration for the possible promotion.

The facility staff are responsible for conducting administrative investigations regarding PREA and the Ohio State Highway Patrol is responsible for conducting any criminal investigations. When staff were questioned about the collection of evidence in allegations of sexual abuse, the large majority of staff were able to articulate the appropriate procedures to take to ensure that there is proper evidence collection, or how to secure the crime scene until the investigator from the Ohio State Highway Patrol was able to get there to collect evidence themselves.

Through interviews with staff and the local hospital, it is clear that the facility does not perform forensic medical examinations. These are performed at Hillcrest Hospital in Mayfield Heights, OH. When a forensic examination is conducted as a result of a sexual abuse at the facility, there is no cost to the victim as per CoreCivic policy.

The facility has established a relationship with the local rape crisis center. The Cleveland Rape Crisis Center provides services to inmates if they are taken out to the hospital for a forensic medical exam. However, if the inmate requests other types of service, the facility has a victim support staff member, the PREA Case Manager, who meets with inmates to assist them if they are requesting it.

Policy review and staff interviews confirmed the compliance with this standard. The AW/PCM and facility investigator (once position is filled) are responsible for conducting the administrative investigations for allegations of sexual abuse and sexual harassment.

These internal investigators are also responsible for referring the allegation to criminal investigator. The Ohio State Highway Patrol conduct the criminal investigations at the facility. The AW/PCM indicated that the trooper assigned to the facility is very responsive when cases are referred to him for investigations.

The AW/PCM stated that all sexual abuse allegations are referred to the assigned trooper to allow him to make the determination if the case has the merits of criminal elements and should be investigated criminally. If the trooper determines it should be investigated criminally, the AW/PCM or facility investigator keep up to date on the status of the investigation.

CoreCivic provides PREA education to inmates as soon as they arrive at the facility and within (7) days after arrival.
A majority of the inmates interviewed as part of the onsite audit, indicated that they recalled receiving basic PREA information very shortly after the arrival at the facility. They were also given a handbook, which includes PREA reporting information, during their arrival at the facility. They did indicate that they were required to return the handbook at their orientation.

Orientation typically occurs within the first (7) days an inmate arrives at the facility or less. During the orientation session, the majority of inmates interviewed indicated they were shown a video about PREA.

Staff were able to provide verification that an inmate received the orientation. Inmates signed forms which showed that they were at the orientation session.

Auditor Overall Compliance Determination

☒ Exceeds Standard (Substantially exceeds requirement of standards)

☐ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Review of documentation and interviews with the AW/PCM verified that the facility has not only met but exceeded this standard. As mentioned earlier in this report, the facility did not have the investigator position filled, but had hired someone that would begin in mid-September.

The AW/PCM does conduct PREA related investigations and has completed not only the basic level of specialized investigations training from the National Institute of Corrections (NIC), but also the second level offered by NIC.

The Warden for the facility indicated during his interview that he has taken the specialized investigations training and that the Chief of Security will also be taking the training.

In addition, the new investigator that has been hired has completed specialized investigations training for PREA at the position that he is leaving and has conducted PREA investigations. As this is the case, the new investigator will be able hit the ground running when he begins in September 2018.

This facility has a full-time medical department which operates (24) hours per day, (7) days per week. There are both regular CoreCivic employees and contracted staff in the medical department. All staff, regardless of their employer, is required to take the basic level and specialized medical/mental health training.

Auditor Overall Compliance Determination

☒ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)
Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Lake Erie Correctional Institution is required by the ODRC to utilize the assessment system of ODRC. This system is computerized and is part of the larger electronic inmate management system.

The risk assessment contains all the required questions from standard 115.41. Inmates are asked these questions when they arrive in through R&D. The medical staff are the ones to administer the questions to the inmates during this intake process.

All inmates are asked these questions when they arrive for the first time during this intake process. The majority of the inmates interviewed during this audit process indicated that they remembered being asked these questions during that process. Inmates are informed, at the time of the assessment that they will not be punished for not answering questions.

The (30) day reassessment is conducted by the case management staff. The PREA Case Manager is responsible to ensure that all reassessments are conducted in the appropriate timeframe. If there is an issue that arises during this reassessment, the PREA Case Manager will meet individually with the inmate to further assess the situation.

The PREA Case Manager will conduct the reassessments when there is an allegation of sexual abuse or if there is additional information that is learned and case management staff may feel there is a need for an additional assessment.

Access to the risk assessment information is limited to the case management staff, medical staff and the AW/PCM.

During the interview with the PREA Case Manager, it was found that if an inmate is transferred out of the facility for a court appearance or other requirement, and the inmate is out of the custody of the staff of Lake Erie Correctional Institution, a full risk assessment is not administered upon the return of the inmate to Lake Erie Correctional Institution. The inmate is asked one question, if they were abused/victimized whey they were out of the custody of the Lake Erie staff. It was also determined that it does not matter how long the inmate has been out of the custody of the Lake Erie staff, this is the only question asked upon the return of the inmate.

Initially, this Auditor felt that this practice did not meet the standard for assessing inmates when they have returned to the facility, no matter the reason. Initially ODRC staff did not agree with this determination.

However, through review of the standard, FAQ’s provided on the PREA Resource Center website and discussion with PREA Resource Center staff, Welcome Rose, the ODRC agreed that this practice does not meet the standard and will be changing it for all ODRC facilities.
In order to show compliance, the facility and ODRC provided several items to this Auditor for review. First, ODRC provided an update to the policy guiding the administration of risk assessments conveying the new process. Secondly, it was agreed upon that the facility and ODRC would provide documentation for a two (2) month period showing that the new process has been implemented.

Ohio Department of Rehabilitation and Corrections provided a listing of all inmates, from January 25 through March 25, 2019, who returned to the facility from another corrections facility. This report showed the date of the return of the inmate, the facility the inmate was returning from, the date the (72) hour full risk assessment was conducted and the date the (30) day risk assessment was conducted.

This Auditor is confident that the new practice/procedure is in place and continues to occur as required by standard and policy at the facility.

**Auditor Overall Compliance Determination**
Lake Erie case management staff were able to provide information regarding the use of the information gained through the risk assessments of the inmates. This information is utilized in all four areas required by PREA standard of housing, education, work and programming. The case management staff are responsible for ensuring that this information is taken into consideration for placement in these areas, along with the use of good correctional judgement. The case management staff is responsible for utilizing this information for housing placement and reassignments.

The PREA Case Manager discussed how she utilizes this information when she reviews placements for work, programming and education. While these three areas are important for monitoring, the focus is placed on the housing placement for inmates.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Through interviews with staff and review of the PREA policies, it is clear that involuntary protective custody is only used as a last resort for the safety of the inmate. The AW/PCM could not recall any recent placement of an inmate involuntarily in protective custody. The staff feel as though there are enough housing options on this yard that involuntary protective custody is rarely necessary.

Inmates from the segregation unit that were interviewed indicated that none of them were placed there involuntarily for protection. Those inmates interviewed during the onsite audit were placed for disciplinary reasons.

While this practice is not done, the facility does have the policy in place to document this situation should it occur. The AW/PCM was able to discuss the review process for those placed in the TPU (segregated housing) and those reviews fall within the PREA standard requirement.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Through information gained from review of facility policy and interviews with staff and inmates, it is clear that inmates at this facility have multiple reporting options. Inmates were able to articulate a number of options for reporting such as going to a staff member, writing a “kite”, contacting the rape crisis center or calling the reporting number on the posters by the phones (*89).
When the inmates were asked where the (*89) went to, the majority were unable to provide that information. On the first two days of the onsite audit, this reporting number was not functioning properly. However, this Auditor did go to a housing unit on the last day of the audit to test this number and it did ring through and work as is required. This line goes outside of the ODRC to the Ohio Department of Youth Services. In addition, inmates have options through CoreCivic to make reports to an outside entity.

Staff were able to articulate clearly what their responsibilities are if they would receive a report of sexual abuse or sexual harassment from an inmate. All indicated that they would immediately contact their supervisor to initiate the investigation process.

The Lake Erie Correctional Institution conducts the administrative investigations for all PREA related allegations. There is a facility investigator and the AW/PCM who conduct the investigations. As mentioned earlier in this report, the facility investigator position is open, however, the replacement has been hired and will begin in mid-September 2018.

During the onsite audit, this Audit reviewed (9) investigation files for PREA. These files were in good order and easy to follow and identify the necessary components.

The Ohio State Highway Patrol is responsible for conducting the criminal investigations related to PREA. The Ohio State Highway Patrol has assigned one investigator to the facility, Trooper Royco. The AW/PCM notifies the trooper of all PREA allegations and he determines whether or not they will be investigated criminally.

This trooper has investigated numerous allegations of sexual abuse for criminal charges. He has taken a couple of these investigations to the district attorney in Ashtabula County. The district attorney has refused to prosecute any of these cases because he feels that there is not enough evidence to proceed. To date, no PREA cases in Ashtabula County have been prosecuted.

PREA standard 79-ISA-02 guides the investigation process for both administrative and criminal investigations. The policy includes all the requirements of this PREA standard. The AW/PCM was able to articulate the definitions and standards which apply to the administrative investigations for PREA.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Through documentation review and interviews with the Warden and AW/PCM, the facility was found to be in compliance with this standard. If a staff member is involved in an allegation of sexual abuse, that staff member will be moved to another post in the facility, or suspended from duty upon the Warden’s determination, until the conclusion of the investigation.

As with all allegations of sexual abuse at the facility, the AW/PCM will contact the assigned trooper for his determination whether a criminal investigation is warranted. And if there is a substantiated case, any relevant licensing bodies will be notified of such.

Additionally, as per policy, if there is a substantiated case, the presumptive disciplinary action is termination. When questioned, the AW/PCM could not think of a situation where the employee would not be terminated from their position.

Allegations of sexual abuse against a contractor or volunteer are investigated in the same manner as any other allegation of sexual abuse in the facility. The AW/PCM indicated that there will be an administrative investigation and that the Ohio State Highway Patrol assigned trooper will be notified to determine if this allegation should be investigated criminally.

If a contractor or volunteer are involved as the alleged abuser in an investigation, they will not be allowed access to the institution until the conclusion of the investigation and the investigation is determined to be unfounded.

If there are criminal charges, CoreCivic policy states that the institution will notify any relevant licensing bodies the individual may be certified through.

At the time of the onsite audit, staff could not remember any volunteers or contractors being removed from the facility for reasons related to PREA.

PREA Policy 79-ISA-02, Page 15 of 17, #6, indicates that:

“Disciplinary action may be taken when it is determined that an inmate made a false report of sexual misconduct. If the RIB finds an inmate guilty of making a false report, restitution may be ordered for the costs incurred by the DRC in response to the false report. However, no inmate reporting sexual misconduct shall be issued a conduct report for lying based solely on the fact their allegations could not be substantiated or that the inmate later recanted his allegation. Each case shall be carefully evaluated on its merits, considering all evidence and circumstances and whether there is any possibility that the alleged incident could have occurred.”

While the ODRC policy does not include all of the elements of this standard, the CoreCivic policy 14-02, does include elements such considering whether or not the inmate should participate in therapy or counseling services to address the behavior displayed.

The facility has both medical and mental health staff working at the facility. The medical staff are responsible for administering the (72) PREA risk assessment. During interviews with medical staff who administer this assessment, it was noted that they provide inmates with information regarding informed consent before they ask any PREA related questions.

If an inmate identifies as a victim of sexual abuse, a referral is made for the inmate to speak with one of the mental health professionals at the facility. This referral occurs immediately and someone on the
mental health staff are able to see the inmate usually within (14) days, but usually can be seen within (8) days on average.

Additionally, if someone is identified as a perpetrator of sexual abuse, they are also referred to the mental health staff and offered time to be seen within the required (14) days.

As stated, the facility has a (24) hour per day, (7) day per week medical department with nurses on duty all shifts. Medical staff are available to provide care at any time day or night. While the mental health staff are not (24/7), medical is able to provide assistance until the mental health professionals are available.

If a situation occurs in which an inmate would need to be seen at a hospital for a forensic examination, the medical staff are the ones to make that decision. If medical staff indicate that the inmate must be transported out, the security staff put the process in motion to make that occur.

Through discussions with both the medical and mental health staff members, it is clear to this Auditor that the services received through these departments are above those services they would receive in the community.
Emergent medical issues will be addressed as soon as they are identified. Inmates may also request an appointment with the medical department by submitting a request. Interviews with staff and inmates indicated that a medical request slip can usually be accommodated within a week of the receipt of the request.

Requests for mental health services by an inmate can usually be accommodated within (3) days of the receipt of the request by an inmate.

If the mental health staff learn of an abuser who has perpetrated institutional sexual violence, they will conduct an evaluation on that individual as soon as possible.

The facility conducts sexual abuse incident reviews as required by PREA standard. The AW/PCM heads the review team and is done for all investigations that are determined to be both substantiated or unsubstantiated.

CoreCivic utilizes a two-step review. The first review is done through a conference with staff at CoreCivic headquarters (FSC) and occurs very shortly after the allegation is made. The second review is completed after the investigation has been completed and an outcome is determined.

This second facility review is conducted with the following individuals and occurs within (30) days after the conclusion of an investigation. The following departments are involved in this review.

- Ms. King (AW/PCM)
- Ms. Conley (PREA Case Manager)
- Medical
- Mental Health
- Facility Investigator
CoreCivic has developed a form that is utilized for the facility review of the investigation. Due to the extensive review and oversight of these investigations, the facility exceeds this standard.

This Auditor was able to review the prior audit report from 2015-2016 for the Lake Erie Correctional Institution.

CoreCivic operates approximately (129) facilities including prisons, jails and community corrections centers throughout the United States. CoreCivic works to ensure that all facilities are audited once during each (3) year audit cycle. The majority of the facilities were audited in the first two years of the audit cycle.

This Auditor was provided with a great deal of information prior to the onsite visit. In addition, this Auditor requested multiple documents while onsite and was provided with all information requested.

All interviews were conducted in private. Interviews were conducted in a conference room in the administration building, with the exception of those inmates that are housed in the TPU. Those interviews were conducted in a staff office in the unit itself.
